

# AccessGuard<sup>®</sup>

PATHWAY PROTECTION. EASY ACCESS.

a product by Industrial Fabrics, Inc.

AccessGuard<sup>®</sup> is a flexible mat providing a reinforced and stable surface for beach access over soft sands. Adapting to the existing contours and providing a slip resistant surface in wet conditions, AccessGuard<sup>®</sup> can be used as a temporary or permanent solution. The oscillating mesh design manufactured from a UV stabilized polymer provides a wheelchair surface and a heat reduction additive keeps the product barefoot friendly. AccessGuard<sup>®</sup> can easily be cut to be formed around existing obstacles. The attractive design of AccessGuard<sup>®</sup> is your beach access solution for all types of applications.

Proudly Made In The USA.
